

# SUMMER MATH ACTIVITIES

Below are skills your child should know when entering third grade in September.

1. Adding 2 digit numbers with and without re-grouping
2. Identify shapes and symmetry
3. Write, spell, and utilize ordinal numbers. (1st first, 2nd second...etc)
4. Identify and write the value of each coin
5. Make simple change- add/subtract money amounts
6. Quickly adding doubles and doubles + 1 (2+2, 3+3 and 2+1, 3+1)
7. Label and use a calendar-What is the third Wednesday of the month?
8. Tell time to the quarter past, half past, and hour

Each incoming third grader is expected to practice the above skills over the summer to keep them current. Below are some suggested websites or math practice activities.

The following activities are also a great way for your child to practice and enhance his/her math skills.

- Do addition and subtraction outside with sidewalk chalk
- Use fact flash cards (addition and subtraction)
- Practice coin counting and making change by playing store
